-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 49, and claims 50 and 53 which depend therefrom, are presented by Applicant as depending from non-existent claim 90. Accordingly, these claims are objected to and have not been considered in the Election/Restriction presented below.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to two switches and a plurality of detents.
- II. Claims 10-14, drawn to first and second pluralities of detents and first and second engagement members.
- III. Claims 15-17, drawn to a detent tab and a detent ring.
- IV. Claims 18-23, drawn to a hinged backlight button.
- V. Claims 24-29, drawn to a backlight button surface area equal to or greater than a display surface area.
- VI. Claims 30-36, drawn to a backlight button with a cross-sectional surface area at least 2.5% of an outer housing cross-sectional surface area.
- VII. Claim 37-39, drawn to a backlight button forming a portion of a controller outer housing.
- VII. Claims 40 and 41, drawn to a zebra strip disposed within a slot.
- VIII. Claims 42-47, drawn to intersecting first and second circuit boards.

Art Unit: 3744

- IX. Claims 48, 51, and 52, drawn to rotating a rotatable interface member causing a display to display a second parameter.
- X. Claims 54-60, drawn to a movable interface member forming a portion of the controller front surface and movable relative the display.
- XI. Claim 61, drawn to a movable interface member adapted to move relative to the central region of the front face.
- XII. Claims 62-66, drawn to a portion of the controller extending at least partially into a hole in the movable interface member.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-XII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each of inventions I-XII has separate utility such as in an HVAC controller which does not include the features of each of the other inventions as listed above. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the specific search required for each of Groups I-XII is not required for each of the others of Groups I-XII, restriction for examination purposes as indicated is proper.

A telephone call was made to on to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3744

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on 571-272-4834. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
